Professional Summary

Dynamic **Associate Software Engineer** at **Nomura**, specializing in **React.js** and **TypeScript**. Achieved a 35% improvement in UI performance through code refactoring and **Redux flow optimization**. Experienced in building scalable web applications, integrating automated testing pipelines, and collaborating cross-functionally to enhance software quality.

Experience

Nomura Research Institute Financial Technologies India

Kolkata, India

Associate Software Engineer

Aug 2023 – Present

- **Architected Micro-Frontend Ecosystem:** Led the implementation of **Module Federation** to decouple **5** enterprise modules, enabling independent deployments and reducing main bundle size by **30%** via shared vendor dependencies.
- **Redux Flow Optimization:** Redesigned the global state management layer to use Normalized State Patterns, resolving data inconsistency bugs and improving UI interaction responsiveness by **35%**.
- **Optimized Rendering of Complex Data Sets:** Implemented **List Virtualization** (react-window/react-virtualized) to render 10,000+ data-heavy cards, reducing initial load time by 60% and cutting memory consumption by **45%**.
- **Engineered Enterprise UI Framework:** Developed a custom framework built on AG Grid and Material UI, standardizing 50+ data-intensive screens. This abstraction reduced feature development time by **30%**.
- **Established Test-Driven Delivery:** Architected a frontend testing strategy using Cypress and Jest, integrating it into Jenkins CI/CD pipelines to ensure 100% feature reliability.

Nomura Research Institute Financial Technologies India

Kolkata, India

Associate Software Developer Intern

Jan 2023 – Jul 2023

- **Optimized State Hydration:** Reduced API latency by **45%** by implementing persistent local caching and optimizing initial state hydration during the application bootstrap.
- **Employee Portal Design:** Developed a React-based internal hub used by **200+** employees, focusing on component reusability and fast load times.
- **Quality Assurance:** Increased code coverage to **70%** via automated unit and integration tests, reducing production UI regressions by **50%**.

Education

St. Thomas' College of Engineering & Technology

Kolkata, India

Bachelor of Engineering in Information Technology **GPA : 9.52**

2023

Hindmotor High School

Kolkata, India

Class XII (Senior Secondary Examination, WBCHSE) **Aggregate : 80.80%**

2018

Skills

Tech: JavaScript (ES6+), TypeScript, Java, HTML5, CSS3, React.js, Redux.

Testing & Ops : Cypress, Jenkins, Git, CI/CD, Micro-Frontend (Module Federation).

UI & Tooling: AG Grid, Material UI, Styled Components, Webpack, Vite, Storybook, Figma.

General: SOLID, Design Patterns, Data Structure, Algorithms, Object Oriented Programming, REST APIs.

Awards and Achievements

- Received **“Shining Star Award”** (Q3 2024) for improving UI scalability.
- Mentored junior developers on React architecture and component design.
- Active on LeetCode focusing on DSA and algorithmic problem-solving.
